

<b>Client</b>	Goldstar Transport	<b>Project Scope</b>		<b>Time Scale</b>
<b>Sector</b>	Transport and Cargo	Refurbishment	Lighting & Electrical	Six Weeks
		Ceilings	New Toilets / Shower	<b>Value</b>
		Decoration	Repairs	Circa £70,000

## Case Study

Goldstar Transport is a recognised leader in the transportation industry, with offices at major ports across the UK to manage their national and international distribution network.

### Brief

Due to continued growth, the company needed to expand their Southampton operation, leasing several acres of land in which to manage their growth in capacity. On the acquired land, there was a derelict Portakabin that could be used for office space, but which was in need of refurbishment.

### The Project

Having agreed costs, we renovated internal and external aspects of the portakabin including:

- Replacing all the electrical systems for the unit
- New internal LED lighting
- New ceilings
- New toilet and shower area
- New kitchen installation
- Flooring throughout - a combination of vinyl flooring and carpet
- Complete internal and external decorating
- Repairs to the external ramps.
